UNEMPLOYED: THE FRONT CAN HELP YOU!

KNOW YOUR RIGHTS! The bureaucrats at the Dole Offices are only interested in an easy life. They don't care about you. They just push you from one office to another to get rid of you. They won't tell you of the benefits you're entitled to. IF YOU DON'T KNOW YOUR RIGHTS YOU WON'T GET ANYTHING!

DON'T JUST BE A WAGE SLAVE! If you do get a job it'll probably be a boring, low-paid, dead-end one – for a company that just wants to exploit you. DON'T WORK FOR THE BOSSES – WORK FOR YOURSELF! Here's how:

* **GET A GRANT TO START YOUR OWN BUSINESS.** We've all got a skill we would like to use. We would all like to work at a job we enjoy. Well, thousands of people – once on the dole – are doing just that. They've applied for a Manpower Services Commission grant and started their own businesses. It's easier than you'd think. You could do it to.

* **GET TOGETHER WITH YOUR MATES AND START A WORKERS CO–OPERATIVE.** In a Workers Co-operative, you and your mates would own and control the business you work in. You can decide – together – how to organise your work, and what to do with the profits. You can also learn new skills, and develop those that you already have. Get in touch with your local Co-operative Development Agency for details on how to set up your own Workers Co-op.

NF News seeks to persuade its readers to feel angry about the evils of multiracialism and to direct their anger solely at the corrupt politicians who created a multi-racial problem in Britain, and not coloured immigrants in general. "Racialism" is NOT unlawful – only "racial hatred".

ISSUE No. 70 SEPTEMBER 1985

National Front: Progress, Consolidation, Victory!

THE PRESENT Leadership of the National Front came to power in late 1983. At that time, *National Front News* was an irregular, 4-page broadsheet. Now it is a regular, 8-page newspaper! Additionally, over the last year or so, bulk sales have gone up and subscriptions have risen dramatically.

Yet the progress made by *NF News* just really mirror's the progress of the National Front itself.

For instance, the Front has made fantastic progress in terms of ideological development. We now hold regular Educational & Training seminars, aimed at building up a sound, middle-management structure. We have our own printing, silk-screening and typesetting facilities. The Young National Front has been reformed and is growing stronger day by day. A Militants' Levy has been introduced for those who are determined to show their financial commitment to the Cause. Additionally, a vast new range of propaganda has been produced.

But there is still much to do! In the struggles ahead, *National Front News* is determined to play its part to ensure our final victory. With this in mind, we consider that the introduction of the following four features are vital to our success:

* **POSITIVE PROPAGANDA**: We have been a fearless critic of the Establishment's policy of 'positive discrimination' and the evils of multi-racialism. However, we are aware that, to some degree, this approach to the Racial question is strictly negative. Therefore, *NF News* will, in future, focus increasingly on positive values such as White Pride and a mutual respect for each Race's cultural values.

* **A REVOLUTIONARY STANCE**: We need to recognise that the National Front is a Revolutionary Nationalist Movement. We are opposed to Communism **and** Capitalism – we fight for National Freedom and Social Justice. The propaganda of *NF News* will, in future, more fully reflect our revolutionary stance.

* **GRASS ROOTS ACTION**: We need to transform the National Front into a genuine, grass-roots movement. And in order to serve the local community, the NF has to be placed – nationally – on a grass-roots footing. To do this, we will shortly be introducing a **Community Action** feature.

* **GREATER VARIATION**: Over the last year or so, our policies on animal welfare and the environment have become very well known. In order to increase the public's understanding of NF policies, we will be increasing our coverage in other areas – especially in economic and social matters.

It is now September, 1985. With this issue of *National Front News*, we have reviewed the NF's recent progress. We must now seek to consolidate our gains. We must also incorporate those vital features – described above – into *NF News* by the end of this year. If we do so, it will represent just another step on the NF's road to eventual victory!

BLAME THE BOSSES FOR THE BLACKS

THE VOICE* which claims to be Britain's best black newspaper, is full of stories of racial attacks, discrimination, biased police, rows, inquiries and victimisation of blacks. In fact reading it makes one wonder what on earth black people are doing still living in a society such as ours when they could be free from discrimination in their own countries, miles away from the *"racist British with their intolerant prejudice".

The editorial in *The Voice* bemoans the fact that London Weekend Television has dropped its two ethnic magazine programmes *'Black on Black'* and *'Eastern Eye'*, attempted to sack its two leading black producers and succeeded in sacking Rustie Lee, the black compare of *'Game For A Laugh'*. And asks why after three years of black programmes are there still so few black, behind the scene technicians?

Of course *National Front News* can tell *The Voice* why there are so few black technicians. It's the same reason why after 35 years of inhabiting our land they fail to have a single representative in parliament. The British people prefer their own. Just the same as West Indians prefer their own, Africans prefer their own and Asians prefer their own.

BLACKS USED

Black people in this country are being used. Used by a cynical, careerist, power hungry minority who welcome blacks and Asians to Britain solely to use them to achieve their evil aims.

In the 1950's the Tories encouraged blacks to Britain for the purpose of cheap labour. A move designed to break the Trade Unions and split the British workforce.

In the 1980's the Labour Party is using blacks and Asians solely for their votes to attain power at the next General Election. They don't really care about black people as is shown by their refusal to allow a black section in their party despite allowing the Jewish community to have their own section.

BLAME THE BOSSES FOR THE BLACKS! Enoch Powell was one of our Bosses in Parliament when he opened the floodgates. Ever since then the Bosses have exploited the Blacks.

★ ★

BEST INTERESTS

The National Front believes that the best interests of both the British people and black people would be served by Africans, West Indians, Pakistanis and Indians returning to their own countries.

That belief is shared by black nationalist leader Kwame Toure. In 1982 he told black audiences in Britain, *"You who are born in Britain must understand that the primary struggle is the total liberation and unification of Africa. Daughters and sons of Africa, your mother is calling loud and clear. Come now, organise the African revolution."*

SLAVE TO CAPITALISM

The Tories don't want blacks to return to Africa to fight for justice. They want them to stay in Britain and slave for capitalism.

The Labour Party don't want blacks to return to Africa to fight for 'the African Revolution'. They want them to stay in Britain and vote for a Labour Government who once in power would show as much enthusiasm for 'Black Pride' as they have done for black sections within their party.

RACIAL PRIDE

The voice of Black Racial Pride calls on Blacks everywhere to return home. The National Front is the only political party in Britain that supports that voice of racial pride by actively campaigning to return Britain's blacks to their countries of ethnic origin.

NATIONAL FRONT NATIONWIDE

THE inaugral meeting of Cardiff National Front went ahead very smoothly with about 20 people present. The enthusiasm shown was very encouraging and there seems little doubt but that Cardiff NF is well and truly launched. Initial activities will include mass leafletting with our main national leaflets and also with a specially produced bilingual leaflet. Supplies of posters and stickers have also been taken, and we have been promised at least a minibus load of supporters for our annual Remembrance Day Parade – the first time we have had such a Welsh contingent for a very long time, if ever.

The only problem with the trip was that on the way back together with two Ealing members my car was pulled in by a random police road check (Yes they are illegal) just past the Severn bridge. Other cars were getting a five minute check and then "Thank you very much, sir, have a pleasant journey". About an hour later the nice, kind, pleasant police officer was still saying "There seems to be some hiccup in the computer with your car registration number". Now I am not paranoid, but . . . .

After this experience I decided to travel to Glasgow by coach. The journey went very smoothly which is more than can be said for the meeting. By sheer bad lad luck the 13th August was the day that Glasgow Railway drivers had decided to go on strike. As a consequence we have had more apologies from people who were unable to get there than we actually had people at the meeting. However all is not lost. It does seem that a new committee is being formed which should enable us to see an increase in activities, and while in Glasgow, Peter Shepherd, the Scottish Organiser and I did an interview with BBC Scotland. The interviewer was a nasy little man called "James Stewart", however we will have to wait until November to see what the programme is going to be like.

Although only a new unit, Glasgow is showing very steady signs of growth, while two new areas where we are hoping to held meetings to launch units are Wandsworth and Reading.

All in all it has been a busy but very healthy month as far as new units are concerned, and as this is at the height of summer which is usually a quiet time, the outlook for the autumn looks very healthy indeed.

THE EVIL WHICH WE FIGHT by Ted Budden

OF ALL the odious freaks and shambling degenerates that seem increasingly to infest the world today, there can surely be none quite so repellent as the hate-crazed psychopaths of the Anti-Apartheid Movement.

Even though I knew full well that such vermin were capable of just about every affront to common decency, it was nevertheless something of a shock to witness these creatures shrieking abuse at disabled South African sportsmen and women during the recent World Games for Paraplegics at Stoke Mandeville. I simply find it impossible to conceive the kind of twisted mentality that would make anyone wish to persecute the physically afflicted.

Though not normally a vindictive person, I must say that I wished these capering wretches might themselves suffer a broken back – occasioned by a long drop on a short rope.

ASHAMED

Shamefully, the organisers of the games funked the issue and decided to yield to the countries that had boycotted the event because of the South African involvement, among them the United States and Canada. So now South African cripples are banned from participating in all future tournaments and, not for the first time. I'm thoroughly ashamed of being British.

At least these Anti-Apartheid people (assuming they do actually belong to the species homo sapiens) do serve some purpose. For a start they make me feel terribly superior. But most importantly, they are a constant reminder of the totality of evil of the thing we fight.

GAYS GO HOME!

WHILE THE antics of the 'Gay Lobby' continue unchecked in Britain it appears that the Greeks are coming to the end of their tolerance.

When Boy George appeared on stage in Athens wearing a blue and gold dress he was pelted with coins and stones by the audience. Police had to protect the singer and his group Culture Club with riot shields as more than 500 demonstrators drowned out his concert.

The Greeks could also do with some anti-racist indoctrination courses. Culture Club's black bass player Mickey Craig had a particularly rough ride, leading Boy George to complain on his arrival back at Heathrow, "They were just anarchist, racist scum. They hated everybody – Jews, blacks, you name it" . . .

Greek Islands next year? Why not.

Good Riddance...

JOHN LEATHEM has been expelled from the North London Polytechnic for continually failing to turn up to classes.

Mr Leathem was one of the leading thugs who spent the majority of 1984 attempting to stop National Front philosophy student, Patrick Harrington from attending lectures.

With Leathem so busy interfering in the studies of others it's not surprising that he had such little time for his own. But he's probably not too worried by the decision of the college. The Labour Party and the rag-bag of parasitic organisations that live off it are always on the look out for dedicated disrupters. They will no doubt find something for Mr Leathem to busy himself with.

DRUGS MEAN DEATH — NF March For Life!

WHY IS the National Front going to march in Harlow? Haven't we marched there before? Wasn't there some trouble? Who's going to notice us, you can't even march through the town centre? These were some of the immediate reactions to the announcement that the East London and Essex Region of the National Front had called a march to go through Harlow.

The reasons behind the march were several. Firstly, although the National Front had marched there before about three years ago, that march had not been followed up properly and only a few recruits had been won. However recently the NF had been recruiting steadily in Harlow as a result of occasional quiet visits by other branches.

Local members had told us that there was a serious drugs problem in the town and that a lot of youngsters had been approached by pushers and quite a few were now taking drugs regularly and becoming addicted.

The Regional Council therefore decided to run an anti-drug campaign in Harlow culminating in a march. In the weeks leading upto the 27th July thousands of leaflets were put out, posters were distributed and the week before the march a paper sale in the town centre was held.

NF CAMPAIGN

This meant that by the day of the march most local people knew about the NF campaign. Just to make sure a second paper sale was held on the morning of the march and more leaflets were distributed advertising the march.

On 27th July as the march began to form up we were delighted to see quite a lot of local people joining us in the column of about 200 people. They were also clearly pleasantly surprised to see a drum corps turn up and our flag party assemble. We were also not surprised to see a motley collection of Reds lurking on a patch of grass near to our form up point.

When the order to march off was given, our well ordered and smart march led by the drums and flags contrasted sharply with the slouching bedraggled mob of about 70 Reds who crawled down the hill to meet us. As we approached the first roundabout the Reds made an attempt to block our exit road. The police politely asked us to circle the roundabout once so that they could bring up some more police to sweep the road clear.

MARCH

As we marched past our intended exit road which the Reds had blocked they started to laugh and jeer. Their expressions changed somewhat when the march continued on round the roundabout quietly closing ranks. Although the additional police had failed to materialise the police allowed us to move along our originally intended route. The expressions on the faces of the Reds changed abruptly as our column moved determinedly towards them still led by our drums and flags together with our national stewards.

marching, the sight of Reds screaming hysterically as they ran through the shopping centre in a vain attempt to cut us off further along the route, was enough to determine where the sympathy of normal people should lie.

At the end of the march a short rally was held, chaired by National Activities Organiser, Martin Wingfield. Other speakers including Havering Branch Organiser, Dave Gobell, Directorate member, Derek Holland and NF Deputy Chairman Nick Griffin.

NF – MARCHING FOR LIFE

RED FREAKS WHO SUPPORT THE PUSHERS

The few police who were on hand were all that was needed. The Reds were quite happy to shout and push from behind the safety of a thin blue line, but whenever they found themselves face to face with NF members their feet seemed to go into reverse.

The march continued around the edges of the main shopping centre with many shoppers, attracted by the sound of the drums, coming out to see us. Quite a few indicated their support for us by clapping.

Just in case any local shoppers didn't know the National Front was marching, we had a number of leaflets to hand out explaining our campaign.

As a result of this campaign we have already received about thirty enquiries for membership and a committee to run Harlow Group of the National Front is being formed.

Yes, it is true that occasionally in the past, marches have been ill-conceived and not very productive, but this type of campaign and march, of which Harlow is an excellent example, is a good way of getting our policies known and building the National Front. What the NF needs is more campaigns like the one in Harlow.

Did We Fight Two World Wars For This?

THE LATEST document to be published by the Inner London Education Authority called "Multi-Ethnic Education — Guidelines on Muslim Pupils" gives Muslim children a special and priority status over British schoolchildren.

RELIGICUS OBSERVENCE

* Muslim pupils are allowed to miss morning assembly.
* Muslim pupils are allowed to be absent from school to attend religious festivals.
* Muslim pupils are allowed to leave school at lunchtime on Fridays to attend prayers at Mosque.

SPORTS

* Muslim pupils are excused swimming lessons.
* Special arrangements are made for Muslim pupils changing for P.E.
* Muslim pupils can shower separately after P.E.

OTHER PRIVILEGES

* School libraries are stocking books on Islam.
* Special Muslim clubs have been set up in schools.
* Special school meals for Muslim pupils containing ritually slaughtered Halal meat.
* Muslim girls are allowed to wear trousers at school.
* Muslim pupils are excused dancing activities e.g. Music and Movement.
* Special interpreting and translating services made available for teacher discussion evenings with Muslim parents.

The special privileges dished out to Asian pupils in Britain's schools relegates British children to second class citizens in their own country. It also makes a joke of the multi-racialists favourite clarion call "But they're as British as you and me". These people aren't British at all. They are Asian, and what's more they're Asians living in Britain getting preferential treatment over and above the heads of British children. British children from families who have served this country through two world wars.

Labour Loonies

★★

LABOUR LOONIES on the GLC admitted giving a grant of £5,600 to an Asian Group called the Newham Seven Defence Campaign. The group was centred around seven Asians involved in a riot outside a pub in East London. Four of the group were found guilty of making an affray.

★★

LABOUR LOONIES on Wolverhampton Council have decided to name an old people's home after jailed black African leader Nelson Mandela.

Local residents around the new home at Pendeford are upset by the decision, amazed that the home was not named after one of the hundreds of men and women in Wolverhampton who have given service to the city.

★★

LABOUR LOONIES on Manchester Council have spent £7,000 of ratepayers money on the siting of two **'Nuclear Free Zone'** *signs outside Manchester airport.*

★★

LABOUR LOONIES on the GLC have agreed a grant of £135,000 to the London Lesbian and Gay Centre.

★★

LABOUR LOONIES on Islington Council are advertising for an 'Anti-Racist Adviser for Under Fives. The job has a salary of between £11,000 and £12,000 a year.

Meanwhile in neighbouring Camden, *Labour Loonies* **on the council are advertising for two temporary project workers to** *identify the needs of lesbians and gay men".* **They will be given £12,000 to £13,000 a year.**

Newcastle NF Stand Firm

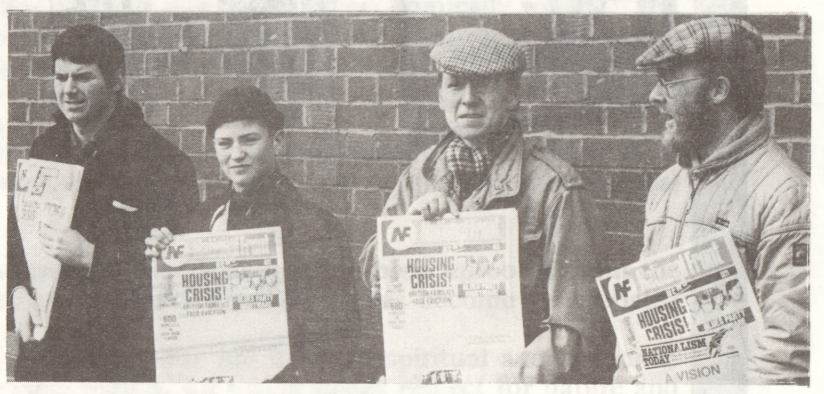
THE TYNESIDE & DISTRICT 'ANTI–FASCIST' ASSOCIATION decided enough was enough. The National Front had gone just too far; not only had they been selling large numbers of their papers at Newcastle United's football ground and distributing thousands of their leaflets all over the City, but now they had the temerity to actually hold meetings and they refused to allow them to be broken up.

This had to be stopped and T.D.A.F.A. were the people to do it. A mass "anti-fascist" demonstration was planned, but T.D.A.F.A. were no fools, the people of Tyneside might have become corrupted by the rascist poison and might not turn out in their hundreds of thousands. So as well as a demonstration a "Rock Against Racism" festival was to be held as well to draw the youngsters into the 'anti-fascist' activity.

By COLIN TODD

To make absolutely sure the day, July 20th, was going to be a monster success, no less than 40 individuals and 74 organisations pledged their support. These supporters ranged from Jack Charlton, one time footballer and manager, to the Days of Hope Bookshop, as well as including every Labour Party branch, the local Liberal Party, the ubiquitous Association of Jewish ex-servicemen and Tyne and Wear County Council.

stration on Tyneside for 50 years. The march of 100 had more people and organisations named as supporting it than they had people turning up on the day, and even then they had student contingents bussed in from places such as Durham. Even the police couldn't keep a smile off their faces. In the evening a few more



NOTHING STOPS NEWCASTLE NF !

As if this wasn't enough to absolutely guarantee success they took an advert in the *Newcastle Evening Chronicle* costing over £2,300, as well as producing thousands of high gloss quality posters.

The day before the event the *Evening Chronicle* again gave the event a big plug with the Organisers being quoted as hoping that "thousands of people will show their opposition to racism by turning out for the event".

On Sunday 21st July the *Evening Chronicle* covered the stupendous event, the first 'anti-fascist' demonstration on Tyneside for 50 years. The march of 100 had more people and organisations named as supporting it than they had people turning up on the day, and even then they had student contingents bussed in from places such as Durham. Even the police couldn't keep a smile off their faces. In the evening a few more people turned up for the music festival swelling numbers to about 300. With very little advertising the average Rock Against Communism gig gets audiences of 400–500.

Newcastle had a reputation for being a solid Labour city, a place where the National Front would never dare to organise. The courage and determination of the committee and membership of Newcastle Branch of the National Front has driven a steamroller through that myth. Newcastle is a fast-growth area for the National Front and 100 assorted Reds are hardly going to slow our momentum.

YOUNG NATIONAL FRONT FOOTBALL SUCCESS!

THE MOST successful Young National Front football competition ever held took place in Kent this summer.

Teams from all over the country took part in the annual YNF Five-A-Side soccer championship. They came from Tyne and Wear in the North East, Manchester in the North West and Birmingham in the Midlands. But most of the teams came from London even though it wasn't a London team which eventually won. The overall winners of the YNF championship were Gravesend Rovers from Kent, who would no doubt argue that their victory had nothing to do with the fact that they were playing on home territory!

The person who should take credit for organising this highly successful event is Kent Regional Organiser Paul Johnson. But Paul, like all good NF members, is never satisfied. He wants next year's Five-A-Side championship to be even more successful with even more Young National Front members getting together to form teams to take part.

Tell Thatcher We Want Work!

MARGARET THATCHER has been in power for over six years now. In that time she has managed to nearly double the level of unemployment to well over three million people. On top of these, many of our youngsters are on dead end 'stay off the dole' schemes which were not invented to help school leavers but to manipulate the politically sensitive unemployment figures.

The root problem of unemployment is not the British worker as the gin-sipping Tories would like to make out. It is the anti-British policies of successive governments.

In 1984 pension, which hold your money, were allowed to invest more money abroad than they did in British industry.

In 1984 pension funds, which hold your money, were allowed to invest more money abroad than they did in British industry.

In 1984 one in three school leavers went straight onto the dole queues or unemployment schemes.

Only the National Front exposes these evil policies. In the next issue of National Front News we will be detailing the root causes of unemployment. But the National Front is a forward-looking, positive organisation which is why we lay so much emphasis on solving unemployment, rather than just complaining about it.

To this end the National Front has produced a special leaflet and poster dealing with the problems of unemployment. The basic text of the leaflet has been reproduced on the front page of this special National Front News Unemployment Issue.

Both the leaflet and poster are printed in red, white and black. Branches, Groups and individuals should rush their order in today using the coupon printed below.

SEIZE THE RIGHT TO WORK

THERE'S NO NEED to waste your life on the dole in a dead-end job working for somebody else. It really is much easier than you think to start up in business working for yourself or in a co-operative partnership with a group of friends. It does involve taking on a lot of responsibility and hard work, but it is rewarding and gives you control over your own future.

If you are unemployed, the best way to start working for youself is to apply for an **Enterprise Allowance Scheme (EAS)** grant from the **Manpower Services Commission (MSC).** More than 50,000 people have done this – and most of them are still in business.

Under the Scheme, the State pays you £40 a week for a whole year to work full-time in your own business, instead of £25 à week to rot on the dole. If you are in receipt of other social security benefits, such as rent, rate or family allowance payments, these are still paid as if you were unemployed. They don't mind what you do, as long as it is not linked to religion, politics, alcohol, sex or gambling. You don't even have to show that your venture is viable – one man is getting £40 a week to train and sell talking parrots, while several punk rock groups have been accepted working "full-time" in the music business. If the business hasn't taken off by the end of the year, you simply register as unemployed again.

GRANT

All you have to do to get an EAS grant is to show that you:

***Have been unemployed for more than 13 weeks.**
***Are in receipt of benefit (supplementary or unemployment).**
***Are starting a new business, not taking over a new one.**
***Have £1,000 in cash, overdraft facilities or equipment to put into the business.**

This last requirement may sound daunting, but don't let it put you off. What you should remember is that the government isn't really too fussed about helping viable ventures. Their main aim is to keep the unemployment figures down to a "politically acceptable" level. Since it only costs the State £15 a week more to help some-one on the EAS than on the dole, it's a fairly cheap way to do it, so the MSC people don't look to closely at what makes up your nominal £1,000.

SEIZE THE RIGHT TO WORK !

Any piece of equipment which can legitimately be used as part of your business project may count towards your £1000. A car or motorbike, a typewriter or personal computer - all are acceptable as long as they reasonably form part of what you need to set up in business

BORROW

You are quite entitled to borrow money from your family or friends to help you with this.

Once you have started on the Scheme you will receive a friendly visit from an MSC officer, this visit is quite informal and he may be able to offer you useful advice.

The MSC staff are generally very understanding and helpful at all times. You get the initial application from a Job Centre, fill it in and send it off. A week or so later you will receive an invitation to attend a regional seminar. These are quite interesting and instructive and they will pay your travelling expenses. At this you'll join a group of applicants from all over your area for several lectures and question-and-answer sessions on running a small business and getting on the Scheme.

This takes about three hours, after which you'll be given a full application form. Fill it in as soon as you like and a couple of weeks later you'll be asked to go to the formal acceptance interview, to which you have to take details of your business bank account and some evidence of the fact that you have £1,000 in some form or another to put into the business. After that the State will pay £80 a fortnight into your business account for a year (the Midland Bank offers free banking facilities to EAS ventures). Any money you make in addition to that is your own affair and doesn't affect the regular State payment. But don't forget that you have to buy National Insurance stamps regularly (about £4 a week) and that if you do well you will have to pay tax at the end of the year.

With a good accountant you'll pay much less tax than if you were working for some-one else. Another advantage of being on the EAS is that you get free advice on running your business from the Small Firms Service (Department of Economic Development in Northern Ireland).

It's as easy as that! Whatever your skills and interests – whether you're a keen amateur mechanic, a handyman, good at sewing, want to run a small-holding, or feel able to provide any of a thousand and one services to the public – YOU can set up in business with an Enterprise Allowance Scheme grant.

If you want to apply for the EAS but still have queries about it, send a large S.A.E. to the NF Welfare Advisory Service, c/o 50 Pawsons Road, Croydon, Surrey. Tell us what you want to know and our experienced Small Business Support team will do all they can to help.

Workers Co-Ops = White Workers Power!

Anything up to 20 friends with a business scheme between them and £1,000 each can get on the EAS. If you want to work in a group (for example, with two people making your product, one person getting orders and making deliveries and one person handling all the paper work) you can work either as a simple partnership or as a workers co-operative.

ADVANTAGES

A co-op costs more (about £200) to set up initially, but has a number of legal and financial advantages.

Just how effective workers co-ops are in today's harsh economic climate can be judged from the fact that while there were only 20 of them in the whole of Britain in 1975, there are now over 1,000. These employ over 10,000 people and a new one is set up each working day.

CONTROL

A workers co-op is a business in which control and ownership rests with the workforce, not with Money. Control is democratic, with each member having one vote. Any profits belong to the members – after providing adequate reserves for the development of the business the balance is distributed to members in a fair and agreed way.

Like any business, a co-op will only survive and prosper if it gets hard work from all its members, and provides a product or service that is really needed at the quality and price offered. But if you think your project fits the bill, why not find out more?

Useful information on setting up workers co-ops is available from:

The Industrial Common Ownership Movement,
7 and 8 The Corn Exchange.
Leeds LS1 7BP.

And from your local Co-op Development Agency, which can be contacted through the national C.D.A. at:

Broadmead House,
21 Panton Street,
London SW1Y 4DR.

ADVICE

Both these organisations provide helpful advice and sell useful books on the details of co-op organisation. The only problem is that they tend to be staffed by "trendies". One project to set up a workers co-op providing a cheap roof insulation service for Old Age Pensioners in East London was sabotaged by C.D.A. officials after they discovered that it was run by sympathisers and members of the National Front.

But in spite of such problems, these people are usually helpful and can provide a lot of useful advice.

HELP

There is far more financial help available to aid small businesses and co-operatives than most people realise. These can provide everything from free training right up to grants or low interest loans worth thousands of pounds. If you think you might qualify for such assistance, ask the MSC, your local CDA or

write to the Industrial Common Ownership Movement.

Alternatively, write to the **Bank of Scotland, P.O. Box 267, 38 Threadneedle Street, London EC2,** and ask for a copy of their **Government Assistance Information Service** questionaire. When you return it, you will receive a comprehensive list of grants which may be available for your business venture. Although provided by a big bank, this free service can be very useful to a small business, so don't hesitate to take advantage of it.

KNOW YOUR RIGHTS

EACH YEAR hundreds of millions of pounds of welfare benefits remain unclaimed. The reason for this is that claimants are kept in the dark as to what they are legally entitled by unhelpful and unco-operative DHSS staff.

One of the main areas in which claimants miss out are in the grants known as **single payments.**

Single payments help you cope with expenses which cannot be paid for out of weekly benefit. They are one-off grants paid from the local DHSS office. Everyone who claims a single payment has to satisfy 3 **general** conditions, which are:

*** You have to be receiving weekly Supplementary Benefit.**
*** You must not have savings over £500.**
*** There must be a need for the item you are asking for.**

These **general** conditions apply to *all* single payments. If you satisfy them you will be able to claim for:

* **Baby things**: napies, feeding bottles, bottle sterilising equipment, a cot, a cot mattress, cot blankets and sheets, a pram or carry cot, baby bath, pushchair, highchair, safety gate and fireguard.
* **Bedding**: blanket, eiderdown, pillows, pillowcases and sheets.

An allowance for clothing is included in your weekly Supplementary Benefit, so you will only be able to qualify for a clothing single payment if you are able to meet the following criteria:

CLOTHING

* You must need clothing and footwear either for a stay in hospital or for a need which arises 'otherwise than by normal wear and tear.'

In other words you may qualify if, for example, you or one of your family is pregnant, or has had a baby and therefore needs new clothing, or if essential clothing has been accidentally lost, damaged or destroyed.

You will often be entitled to a grant for furniture and household equipment if you have within the last three months become the tenant or owner of an unfurnished or partly furnished home. For example, if you have been unemployed for a period of more than six months, or if you have been in hospital for a long period.

OWNER–OCCUPIER

Even if you are not a tenant or owner-occupier you may still be able to get a grant for household items: for example if you or your partner is an old age pensioner, or pregnant, or chronically sick.

If you are in difficulty and are about to move or have recently moved, you are entitled to a grant for minor items of household equipment, including kitchen utensils.

MORE HELP

Due to lack of space we cannot provide a comprehensive list of all benefits available. In some cases help can be given with fuel costs, and pensioners and the disabled are entitled to extra benefits. We hope this article has been of some use to you and we strongly urge you to check to see if you are entitled to any other welfare benefits.

You can do this by either contacting your local Citizens Advice Bureau or by obtaining the *National Welfare Benefits Handbook* (published by the Child Poverty Action Group) at your local library.

NF – MARCHING FOR JOBS

ALLEVIATING A TRAGEDY

THE NATIONAL FRONT'S belief in Nationalism comes from our recognition that a true nation is a unification of families. Just as it is the duty of the Breadwinners of the family to provide for every member of the family who is unable to provide for themselves, so it is the duty of the "family of families" – ultimately the nation – to provide for the genuinely needy, the aged, the infirm and such people as one-parent families.

We therefore believe in a fair deal for unemployed people whereby they would be paid an adequate sum to look after themselves and their families, without having the indignity of having to claim for every item of expenditure.

We deplore the tactics of the Conservative-controlled press in dramatising isolated Social Security frauds, which by comparison with the vast amount of tax evasion that goes on among the business community, is but a drop in the ocean. For the vast majority of unemployed people, unemployment is not a fault, but a tragedy. It is true that there is a minority of people who are work-shy, but such cases can be dealt with by means of deductions of cash from their benefits where appropriate, with their children protected through the issue of clothing and food stamps and the like.

Above all, we believe that it is the duty of the state to provide full employment for the people and, insofar as this may not always be completely possible, to protect those involuntarily unemployed so that they do not suffer unduly. Through the implementation of our financial and economic policies the number of unemployed people in this country would rapidly and drastically drop and we hold successive governments in the United Kingdom in recent years responsible through their inept handling of the economy and their subservience to international financial interests for the widespread misery and burden of unemployment.

WORKERS!

Join Our Struggle!

THE NATIONAL FRONT is a National-Revolutionary movement. That means that we are not content with mere reform. We seek the complete overthrow of the present Capitalist System. In it's place we will build a Radical Nationalist society – built on the principles of Racial Pride, National Freedom and Social Justice.

In this special feature on unemployment, we have described how the National Front can help you escape from a lifetime of misery on the dole. But what else does the NF stand for? Is it a negative, 'one-issue party' as the lying media says? Or does it have a positive, fully encompassing, world view?

Well, find out for yourself! For detailed below are our main principles. They represent our faith. They are the positive values that we are fighting for!

If you agree with us, help us in our Struggle. Join up – join in!

THE NATIONAL FRONT is the movement of British Racial Nationalism. It is committed to the preservation of the national and ethnic character of the British peoples and recognises that the Nation must be of exclusively European and predominantly British racial descent.

THE NATIONAL FRONT is a Distributist movement, in that it believes in the concept of widely distributed ownership of property. As such, we are opposed to Capitalism and Communism because they both lead to ownership and control by the few.

Our aim is to give as many British people as possible a direct stake in their place of work. Consequently, we are opposed to the Stock Exchange which we would abolish, and multinational companies which we would dismantle.

We are in favour of small businesses, partnerships and Workers Co-operatives. We believe this will help restore craftsmanship, pride in one's work, and the re-birth of healthy cultural values.

THE NATIONAL FRONT believes in the right of the British people to national self-determination. Consequently, we believe Britain must seek to have a totally independent capability to defend itself against any aggressor nation, and thus we are opposed to any foreign bases on British soil. We would withdraw from any internationalist bodies which claim or seek to have powers over the British Nation.

THE NATIONAL FRONT believes that it is morally and economically wrong – and politically dangerous – for credit to be created by private institutions as interest-bearing debts. Consequently, we believe in the nationalisation of the banks and that the right to create credit should be solely vested in the government, and be spent – and not lent – into circulation.

The National Front advocates the cancellation of those parts of the National Debt and foreign debts incurred through the fraudulent creation of credit by international finance.

THE NATIONAL FRONT believes that modern man has been uprooted from the soil and placed in an artificial concrete world where he has become a materialist wage slave.

A major return to the land is essential for the cultural, spiritual and economic health of the nation. For the same reason, we would foster respect for nature and end the destruction of our environment by the 'pollute for profit' greed of industrial society. It is up to us to build a Britain where the people are united by the bonds of blood and soil.

THE NATIONAL FRONT believes in the preservation of our cultural heritage and the encouragement of our own folk cultures. We view the importation of alien cultures, languages and 'Americanisms' as a threat to our national identity.

'IRA Off Our Streets!'

WHILE Loyalist marches are being banned and re-routed in Northern Ireland, the Home Secretary, Leon Brittan, is quite happy to allow IRA supporters to march through the streets of London in support of murdering terrorists. Leon Brittan did not object to members of the pro-IRA Irish Freedom Movement marching from County Hall, Westminster on Saturday 10th August, but the National Front did.

About 180 members of the National Front met in groups in the vicinity of the form-up point for the march determined to show to these IRA supporters, including a flute band shipped in from Londonderry, that there are some British people in England prepared to oppose their filth. Just before 1.00p.m. one of the larger groups of National Front members came across a number of IRA supporters and our disgust was rammed home forcibly.

FLAGS AND PLACARDS

As large numbers of police started to flood into the area the NF members formed up along the intended route of the march and displayed their banners, flags and placards. The police immediately moved to box in the NF members and as the time approached for the march off, they even moved police coaches in front of the NF demonstration so that the IRA supporters and other members of the public wouldn't see the NF members.

NF DEMONSTRATION

When eventually the pro-IRA march set off, nearly an hour and a half late, the police while still very nervous were congratulating themselves on having dealt with the NF demonstration. Their actions which were clearly on political instructions contrast to their actions when Red groups attempt to oppose National Front marches.

The police however spoke too soon, as the IRA march came past the NF demonstration, the anger of the NF members showed through and a number of them burst through the police cordon in an effort to engage in meaningful dialogue with the Red scum.

SURPRISE

A further surprise was waiting for the IRA marchers as they moved past Lambeth North Underground Station. Another group of 40–50 NF members and other patriots demonstrated their anger at this march.

While Leon Brittan is anxious not to upset his few remaining supporters in the Tory Party by allowing Sinn Fein councillors on television, he is not prepared to take action against the supporters of terrorism when they walk the streets of our capital city. Only the National Front was prepared to take to the streets and oppose the Marxist rabble on the streets.

Although twelve members of the National Front were arrested on this activity, a substantial amount of publicity was won.

TWELVE NF members were arrested while demonstrating against the IRA. Help us defend those who are fighting for Race and Nation. Send all donations to: Nationalist Welfare Association, Hill House, Huntingfield, Halesworth, Suffolk. Send stamped, self-addressed envelope if you want donation acknowledged.

TOP : Getting the message across. Young patriots from the National Front show that there are many people on the mainland who will never betray the loyal people of Ulster.

RIGHT : Learning the hard way. A group of IRA supporting scum face the wrath of militant young British Nationalists.

YNF SUPPORT MONUMENT CAMPAIGN!

YOUNG NATIONAL FRONT Organiser, Michael 'Fishy' Fishwick, has reiterated the demand made in recent issues of *National Front News*, that the Government should erect a monument in memory of all those who have been killed by the Communist IRA.

Talking to *National Front News*, Fishy stressed that the monument should be dedicated to all those who had been killed – Protestant, Catholic, Soldier, Civilian, Briton and Irishman – in Ulster and on the Mainland.

He also said that the Young National Front completely agreed with the call (made in August's issue of *NF News*) by Keith White, editor of the *Ulster Sentinel*, that the monument should be erected in front of the Houses of Parliament.

Fishy promised that the YNF would do all in its power to help pressure the Tories to erect the monument. Indeed, he announced that the YNF's new paper, *New Dawn*, would back up the campaign.

He also agreed that his own branch – Norwich NF – would whoeheartedly support the campaign. Fishy also called on all other NF units to support *National Front News'* campaign.

Fishy felt that during the monument campaign, it would be important to stress that the National Front wasn't a movement based on religion. Our position on Ulster should also be made crystal clear: That we support the Loyalist's right to self-determination, and that we are opposed to the Imperialistic aims of the Eire government. However, before peace comes to Ulster, the IRA must be smashed once and for all. Then – and only then – can we build a society based on truth and reconciliation, peace and freedom.

Concluding, Fishy noted that if Thatcher didn't meet *NF News'* demand, then the YNF itself should campaign wholeheartedly – on a nationwide basis – for the monument to be erected. If our demand was still refused, Fishy stated that the NF itself should investigate ways and means of doing the job itself!

Sunderland Group Off The Ground

OVER 36 people attended the inaugral meeting of the Sunderland Group of the National Front held last month. Both the size and enthusiasm of the mainly youthful audience point to the rapid expansion of the National Front on Tyneside.

Speakers Andrew Brons and Patrick Harrington attacked the four party system and stressed the role of the mass media in dealing with those who challenged it. Media campaigns against the National Front, such as Brussels, were highlighted. A lively question and answer session followed which gave the new members the opportunity to ask questions on aspects of party policy. Following the meeting the discussion continued over drinks at the local pub.

NATIONAL FRONT POLICY BRIEFING

South Africa

By ANDREW BRONS

IT IS CUSTOMARY to preface all remarks about South Africa with professions of abhorrence of apartheid. However, we make no such profession; we support the principle of apartheid or separate development absolutely. We do not, of course, support the present system of institutionalised exploitation that the Botha Government wants to extend to White workers as well as Black. We support the original vision of Hendrif Verwoerd but we believe that the principle must be extended and developed to take account of new political realities, as well as the experience of separate development from its idealistic beginning to its later corruption and distortion.

INADEQUATE

The 13% of South Africa originally designated for the self-governing Bantu areas is woefully inadequate. Black states established on tribal lines must be large enough to be independent economically as well as politically and to contain and support the whole of South Africa's Black population. There must be equivalent states for the Coloured and Indian populations. The level of investment must be much higher than that originally envisaged for the Bantu Investment Corporation. The Tomlinson Commission in 1954 estimated that £100 million (at 1954 prices) would be necessary in the following ten years. The original idea of White-owned industries in the border to provide employment for Blacks (House of Assembly Debates 29th June 1959) is not acceptable. The industries in the Black states must be, or eventually become, Black-owned – either in the form of small businesses or workers' co-operatives. White South Africa will need to provide continuing help with education and training beyond full independence. Unless such states are given help to become completely self-supporting, they will continue to be a threat to White South Africa by their susceptibility to interference from Communist and International Financial subversion.

There must be no Black/Coloured workers living or working in White South Africa and the system of Black/Coloured domestic servants must end. Whites must be prepared to do their own menial work as the price for their independence and racial and cultural survival.

WAGE SLAVES

Multiracialists, including the cosmopolitan Capitalists who support Botha's 'reforms', criticise the 'slave' nature of the South African economy but they want to transform it into a system in which both White and Black workers are readily transferable wage-slaves. We envisage a system in which White and Black states can enjoy full independence and the citizens of those states can enjoy the freedom and dignity that can exist only in a Distributist state.

The present troubles in South Africa are not the result of too much apartheid but too little.

Whilst we would not normally wish to interfere in the internal affairs of other countries, we believe Racial Nationalists in Britain have a legitimate interest in preserving the racial integrity of our co-racials in that country.

Fight Back For Britain!

YOU CAN help the National Front in its battle to win back our country by joining the Militants' Levy.

The Militants' Levy is a committment you show to British Nationalism and the National Front by sending the party £5.00 a month, every month, to help not only with the day to day running of the National Front but also to build a firm base for the future.

TOXTETH:
HOW TO REGAIN ITS PRIDE

By MARTIN WINGFIELD

"COMMUNITY POLICING IS just not working in Toxteth" announced Mr. Fred Leyland, Secretary of the Merseyside Police Federation. "We've gone out of our way to help the community but they are just not accepting us".

Fred Leyland was talking to journalists after the Police Federation had made a call for better protection for police officers who patrol the Toxteth area of Liverpool.

The call was made after three policemen were injured when their patrol cars were attacked by 50 blacks using railings as spears. Three days later on August 2nd another police car was attacked as it was chasing two thieves after a £70,000 jewel robbery. The patrol car was forced to give up the chase after it was pelted with stones by a mob in Granby Street, Toxteth.

BLACK GHETTO

As Mr. Leyland pointed out, "It is four years since the problems of 1981, but still policemen are getting injured".

Toxteth is still a black ghetto. The Tory Government has done nothing to improve the situation and the local Labour council with all their noble words have done even less.

* It's a place where elderly people live in fear, afraid to leave their homes.

Not The Nine O'Clock News

* It's a place that is a no-go area for people who live outside the district.
* It's a place where drugs are on open sale.
* It's a place where shops and pubs are barricaded with shutters when they are closed.
* And finally it's a place where crime is on the increase. *In fact the figures are so horrific that the local police refuse to release them.*

GIVEN UP

Tory and Labour politicians have given up with Toxteth. They are prepared just to keep the lid on the 'boiling pot' and as long as it doesn't explode in their faces they are satisfied.

The National Front hasn't given up on Toxteth. A National Front Government would pledge to make Toxteth the pride of Merseyside. A place for British families to walk down the streets without fear or reservation and a place where the British community spirit flourishes.

How would this be done? It's simple. Firstly you return all coloured immigrants living in Toxteth back to their country of ethnic origin. Secondly you bulldoze down all the slums, derelict and burnt down shops and all the housing that isn't fit for the British people to live in. Thirdly you renovate all those houses worth renovating and fourthly you build four-bedroomed houses with gardens, houses where families can take a pride in their home and therefore a pride in themselves, which will lead to a pride in their town and a pride in their country.

There is not one part of Britain that the National Front will give up on. Not one street in one town that we will surrender to the ghetto. The Brixtons, St Pauls, Southalls and Toxteths will, in the years to come, be the show places of Great Britain, the show places of the National Front's British Revolution.

But the British people will never be allowed to forget what those places were like before. The photographs, the press reports and the films of what multi-racialism did to our country must be for all to see. It is only then that our people will be reminded how close Britain came to being destroyed.

TOXTETH UPDATE

BROWNED–OFF with being assaulted and rabidly abused by hordes of highly excitable young blacks from Liverpool's immigrant quarter, Toxteth, Labour City Councillors have refused to attend meetings with them.

A meeting in July between the councillors and blacks was called off after the blacks refused to publicly renounce violence.

KIDNAPPING

The meeting, a one-day conference to discuss black people, trade unions and the Labour Party was called by the ultra-militant Liverpool 8 black caucus, a group which last year gained national notoriety by kidnapping a Liverpool councillor during one of their commonplace race riots.

In a latter to the 'raucous caucus', Tony Mulhearn, the Liverpool Labour Party President, put it in a way that even blacks could understand:

"Until your organisation makes a public declaration denouncing this physical violence and abuse and disassociating yourselves from it, then there is no prospect of the party entering into meaningful dialogue!"

HEAVEN HELP

So if ethnic-grovelling Labour Councillors don't feel safe from racial attacks in well-stewarded Toxteth meetings, heaven help those white people, particular old folk and women, who have to live in an area which was described by Merseyside's Chief Constable recently as a place where you're four times more likely to be attacked than anywhere else in Britain.

*** ON THURSDAY 15th August, leader of Liverpool Council Derek Hatton was knocked to the ground as he tried to address an all black meeting in Toxteth.**

Respectable Image

THE GOOD name of the National Front continues to be mentioned in the strangest of places.

The Advisory Centre for Education, a radical watchdog concerned with racism in schools recently announced to Mail on Sunday *columnist, Alan Williams, "The National Front cultivates a more discreet and respectable image these days".*

Isn't it nice to know that our efforts don't go unnoticed!

NF SOCIAL CLUB SUCCESS

THE NATIONAL Front Social Club was launched on Wednesday 14th August with a dinner at an East London restaurant.

The venture was a success with all tickets sold weeks before the function and many disappointed members told they would have to wait for the next one.

Social activities with the National Front have been something of a hit and miss affair with no one really wanting to accept the responsibility for organising a comprehensive programme of events. Now that has all changed with the appointment of Tina Dalton as Social Club organiser.

Tina, from Ealing National Front, has been a tireless worker for the party for four years. The success of the 'launch' dinner was solely down to Tina's good organisation and making sure that people attending were looked after.

The social club has many more evenings organised varying from parties and pub evenings to more dinners and day excursions.

THE MOST ambitious activity planned by the social club is a weeks holiday on the 'paradise' island of Ibiza next May.

Leaving on May 24th and returning on May 31st, it will be a holiday to remember. Full details for those who wish to spend a week next year in the company of National Front friends can get full details from the NF Social Club. POMPEY AGAINST THE REDS

IN a naval port such as Portsmouth, it is hardly surprising to find that C.N.D. has little support, however in a desperate attempt to boost their popularity in this town C.N.D. called a national demonstration for the City at the end of June. Despite bringing in contingents from well outside Portsmouth they only managed to muster about 150 marchers.

UNION JACKS

Already feeling dispirited by this turnout, the marchers were forced to march under a bridge bedecked with Union Jacks and NF banners and where they were subjected to vigorous heckling from NF members. Taking their cue from the NF members a number of members of the public joined in jeering and heckling the marchers who had a thoroughly unpleasant day.

Once again only the National Front was prepared to turn out in opposition to this pacifist group.
